RUBINETTERIA

Il concetto di Tradizione per la Rubinetteria Bugnatese srl si fonda su un percorso caratterizzato da una costante innovazione, accompagnata ogni giorno da una progettazione sapiente ed un servizio a misura del cliente.

L'azienda di Bugnate di Gozzano (NO), fondata nel 1950 da Cipriano Marietta e poi guidata da Gianfranco, prosegue oggi all'insegna di questa tradizione sotto la direzione dei figli Lorena e Gabriele.

The concept of Tradition for Rubinetteria Bugnatese srl is based on a path characterized by constant innovation, accompanied every day by skilful design and customer-tailored service.

The Company from Bugnate di Gozzano (NO), founded in 1950 by Cipriano Marietta and then led by Gianfranco, continues today in the name of this tradition under the direction of their sons Lorena and Gabriele.

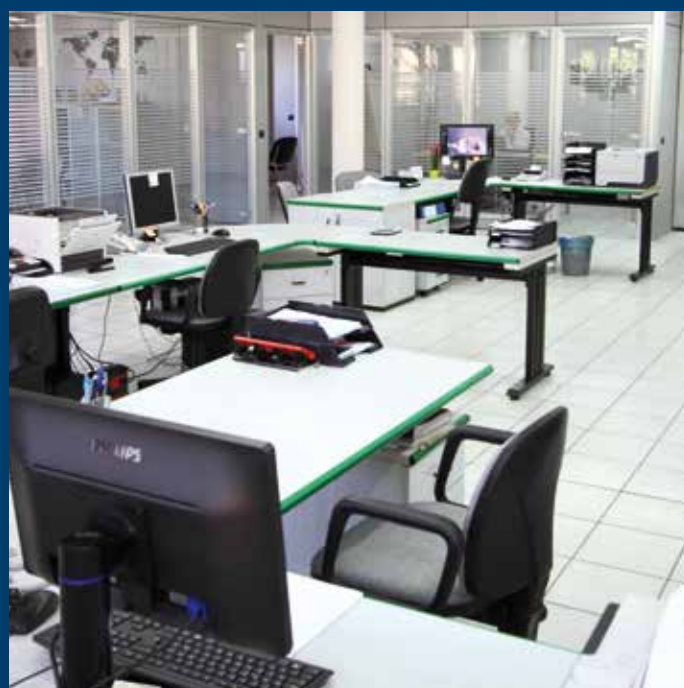

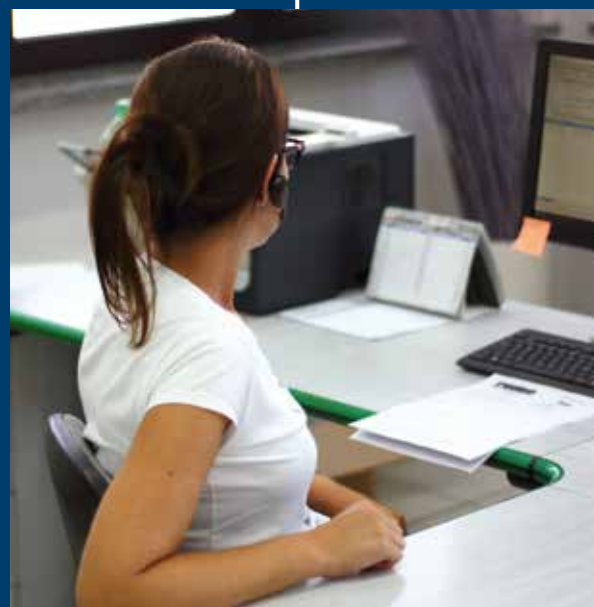

CHI SIAMO
WHO WE
ARE

UNA STORIA FAMILIARE LUNGA OLTRE 70 ANNI

Ci sono passione, attenzione al dettaglio e voglia di crescere e rinnovarsi nel lavoro quotidiano della famiglia Marietta e dei suoi collaboratori, da sempre impegnati a mantenere standard d'eccellenza e determinata ad accrescere il mercato del Made in Italy in Italia e all'estero.

Grossisti, show room, ed idraulici sanno che ogni componente di rubinetteria per la sala da bagno o la cucina che viene progettato dallo staff della Rubinetteria Bugnatese è studiato per accogliere le tendenze contemporanee e il gusto dei clienti finali.

There is passion, attention to detail and the desire to grow and renew in the daily work of the Marietta family and their staff, who have always been committed to maintaining standards of excellence and determined to increase the Made in Italy market in Italy and abroad. Wholesalers, showrooms, and plumbers know that every component of taps for the bathroom or kitchen that is created by the staff of Rubinetteria Bugnatese is designed to accommodate contemporary trends and the taste of end customers.

COSA FACCIAMO WHAT DO WE DO

Oggi l'azienda si presenta sul mercato con un catalogo prodotti che conta 26 serie delle quali: 11 minimaliste, 8 tradizionali, 1 classica, 3 neo barocche, 1 moderna e 1 sezione Cucina, oltre ad una rinnovata sezione interamente dedicata al Wellness. Quest'ultima è strutturata per rispondere a precise esigenze e offrire una vasta gamma di ispirazioni per la costruzione del proprio ambiente doccia ideale.

Tutto ciò viene reso disponibile in una gamma selezionata di finiture particolari e attuali, per adattarsi con gusto alle tendenze contemporanee. La Rubinetteria Bugnatese esporta circa il 65% dei suoi prodotti, realizzando anche numerosi project in tutto il mondo.

Today the company is on the market with a product catalog that counts 26 series of which: 11 minimalist, 8 traditional, 1 classic, 3 neo baroque, 1 modern and 1 kitchen section, as well as a renewed section entirely dedicated to Wellness.

The latter is structured to meet specific needs and offer a wide range of inspirations for the construction of your ideal shower environment. All this is available in a selected range of particular and current finishes, to tastefully adapt to contemporary trends. Rubinetteria Bugnatese exports about 65% of its products, also achieving numerous projects all over the world.

DOVE ANDIAMO

Questi ultimi anni hanno insegnato a tutti noi che parlare di ecosostenibilità non è solo una tendenza del momento, uno stile di vita o un'ispirazione estetica; è una necessità quantomai stringente.

Scan me

Guardare al futuro, oggi più che mai, significa compiere scelte ecosostenibili, a partire dall'impiego di risorse rinnovabili (fotovoltaico) e un utilizzo consapevole dei materiali di uso quotidiano. La Rubinetteria Bugnatese si avvale anche di componenti come aeratori e cartucce tecnologicamente avanzati per il risparmio dell'acqua. Decisa a crescere e migliorare seguendo questa direzione, l'azienda rende oggi disponibile ai suoi clienti la versione digitale del Catalogo scaricabile in PDF tramite codice QR.

WHERE DO WE GO

These last few years have taught us all that talking about eco-sustainability is not just a trend of the moment, a lifestyle or an aesthetic inspiration; it is a very pressing necessity. Looking to the future, today more than ever, means making eco-sustainable choices, starting with the use of renewable resources (photovoltaics) and a conscious usage of daily use materials. Rubinetteria Bugnatese also uses technologically advanced components such as aerators and cartridges for saving water. Determined to grow and improve by following this direction, the Company is now making it available to its customers the digital version of the Catalog downloadable in PDF by QR code.

DESIGN E PRODUZIONE MADE IN ITALY

Qui in Bugnatese crediamo nella qualità, siamo certi che la nostra artigianalità sia il fattore premiante dei nostri prodotti. Questo è il motivo per cui tutti i nostri prodotti si trovano in ogni parte del mondo.

At Bugnatese we believe in quality, we are certain that our artisanship is the rewarding factor of our products. This is why all of our products are found all over the world.

UN'AZIENDA

IN CONTINUA EVOLUZIONE

1950

Inizia l'avventura di Cipriano Marietta nel mondo della rubinetteria.

The adventure of Cipriano Marietta begins in the taps world.

Archeologia industriale nei primi cataloghi fotografici prodotti nei primi anni sessanta.

Industrial Archeology, the first catalogues, photographs of our products during the early sixties.

1960

Nasce la divisione Bluteck votata al design e alla ricerca stilistica.

The Bluteck division is born, devoted to design and stylistic research

2005

L'espansione verso i nuovi mercati fa nascere la prestigiosa collezione "i Riflessi", con i preziosi inserti Swarovsky.

The expansion towards new markets guided us to the new arrival of the prestigious collection "I Riflessi" with valuable Swarovsky inserts.

2007

A COMPANY

IN CONTINUOUS EVOLUTION

2009

Attenta alle esigenze ecologiche di salvaguardia del pianeta, nasce EcoSave: il rubinetto che risparmia acqua.

Environmental friendly awareness leads to the series "Ecosave", the tap that saves water consumption.

Compare la nuova cartuccia termostatica coassiale che permette il risparmio energetico anche su linee essenziali.

It appears the new coaxial cartridge which permits the energy saving also on essential lines.

The technical drawing illustrates the SPS 675-1140 shower system. The side view shows a vertical riser pipe with a total height of 90+549 mm from the base to the showerhead. The showerhead has a diameter of Ø24 mm and is mounted on a plate with a width of 114 mm. A horizontal arm extends from the riser pipe at a height of 706 mm, supporting a curved shower hose with a length of 433 mm. The hose ends in a shower head with a diameter of Ø225 mm. The distance from the riser pipe to the shower head is 310 mm. The overall height of the unit is 675+1140 mm. The base of the riser pipe has a diameter of Ø64 mm and a mounting bracket with a width of 77 mm. The front view shows the base of the riser pipe with a width of 303 mm and a height of 49 mm. It features a G 1/2 connection point and a height of 150±20 mm. The distance between the base and the riser pipe is 75 mm.

9643E

This exploded view shows the components of the 9643E bracket assembly. It includes a main L-shaped bracket with a circular hole, a small cylindrical pin, a larger cylindrical sleeve, and a small L-shaped bracket. The components are shown in a disassembled state to illustrate their relative positions and how they fit together.

CR

BI

NE

NS

9645E

This exploded view diagram illustrates the components of the 9645E faucet. The main body is a long, curved, polished metal spout. To its left is a separate mounting bracket with a threaded hole. Above the spout, there is a circular decorative ring, a cylindrical sleeve, and a small set screw. To the right of the spout, there is a small, curved metal piece, likely a lever or handle component.

086

A chrome-finished bidet sprayer. It features a handheld shower head at the top, a central control knob with a cross-shaped handle, and a long, curved spray arm extending downwards and to the right. A flexible hose is attached to the side of the unit.

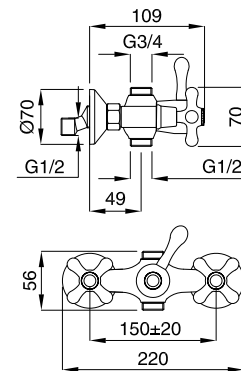

CR
CRDO
BR
RA
DO

003

A chrome-plated brass double-lever faucet. It features two cross-handle levers on either side of a central spout. The faucet is mounted on a circular base plate. The handles have a cross-shaped design with a central screw. The spout is a simple, curved tube. The entire fixture is highly reflective, showing clear highlights and shadows.

RISPARMIO E RISPETTO DELL'AMBIENTE

- CONSUMO + BENESSERE

Abitualmente per comodità o per ragioni estetiche la leva di qualsiasi monocomando si tiene in posizione centrale. Quando inizia l'erogazione dell'acqua la si ottiene tiepida anche se non richiesto. Questa operazione fa sprecare energia, perchè permette alla caldaia di accendersi.

Con la cartuccia **ECOSAVE** aprendo il monocomando con la leva in posizione centrale si avrà un'erogazione di sola acqua fredda.

Per ottenere un'erogazione di acqua miscelata è necessario ruotare la leva verso sinistra fino al primo blocco.

Per ottenere un'erogazione di acqua calda è necessario agire sulla leva con maggiore pressione.

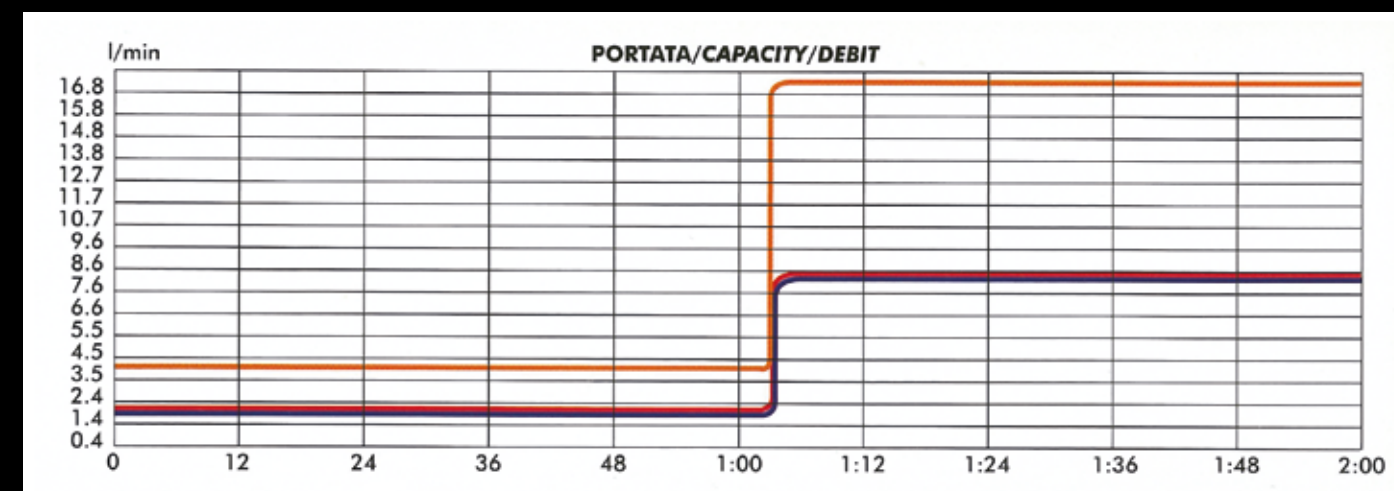

- CONSUMPTION + WELLNESS

Normally for convenience or simply for aesthetical reasons, the lever of any kind of single-control mixer is always maintained in the central position; thus keeping the supply of water tepid even when not required. This operation wastes energy as it enables the boiler to ignite.

Using the **ECO-CARTRIDGE** and opening the single-control mixer with the lever in the central position, you will obtain a supply of cold water only.

In order to obtain a supply of mixed water it is necessary to turn the lever towards the left until it reaches the first locking position.

To obtain a supply of hot water it is necessary to apply pressure to the lever.

SISTEMA BREVETTATO SPRING FIX

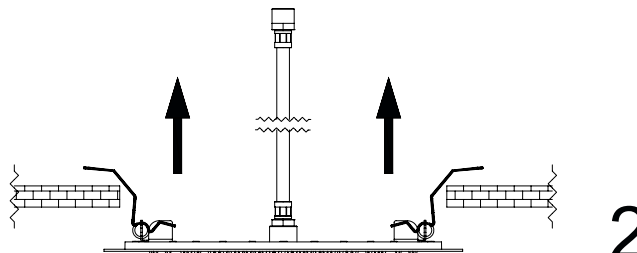

Questo sistema unisce due grandi benefici, la riduzione di 1/3 dei tempi di installazione e l'assenza di viti di tiraggio nella parte estetica del prodotto.

Ricavando una semplice sede nel controsoffitto si collega il prodotto. Il sistema Spring-Fix® permette senza l'utilizzo di utensili di fissare il prodotto in pochi secondi.

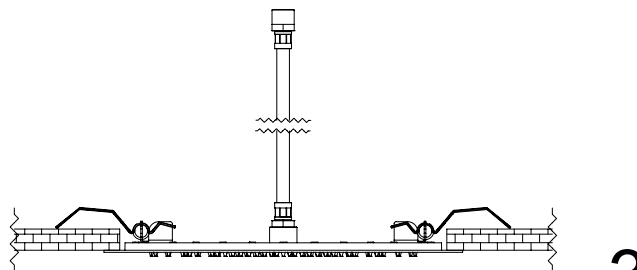

This system combines two great benefits: a 1/3 reduction of the installation time needed and no needs for screws in the aesthetic part of the product. The product is installed by simply creating a sitting site in the false ceiling. The Spring-Fix® system allows for the installation of the system in a few seconds with no tools.
