GAIA

ITALIAN BATHROOM DESIGN

GAIA
ITALIAN BATHROOM DESIGN

Celebriamo l'incontro tra Design, Funzionalità e Emozione.

We celebrate
the intersection
among Design,
Functionality
and Emotion.

Siamo qui per narrare una storia, quella in cui le collezioni hanno il potere di trasformare gli ambienti in spazi di vita autentici. In questo scenario si rivelano alcuni elementi per noi ricorrenti: passione, personalizzazione, inesauribile creatività, pura artigianalità e continua evoluzione. La nostra aspirazione è creare opere in grado di coinvolgere a livello emotivo, oltre che capaci di esaudire le esigenze funzionali. Le collezioni riflettono questo desiderio interpretando le trasformazioni sociali e dando voce alle singole riflessioni dei clienti. Mettiamo a disposizione la nostra professionalità per personalizzare gli arredi ascoltando le esigenze di chi vivrà quegli stessi ambienti. La trama della storia cambia continuamente: ogni pezzo realizzato su misura acquisisce un valore esclusivo, in cui l'estrema cura del dettaglio è espressione della nostra eredità artigianale. Tutte le lavorazioni, infatti, avvengono manualmente: ciò che prende forma sono elementi d'arredo di altissima qualità e senso estetico. In questa storia il cliente è il fulcro di molteplici racconti in cui si esprime il potenziale dell'ambiente bagno trasmettendo ogni volta sensazioni differenti, riflesso delle stesse persone che lo hanno ispirato. Siamo qui per celebrare questo incontro, quello tra essere umano, design e sperimentazione. Un'esperienza quotidiana elegante, versatile e personalizzata.

We are here to tell you a story about how the environment can be changed through our collections, into authentic living spaces. This scenario reveals some of our recurring elements: passion, personalization, never ending creativity, pure craftsmanship and continuous evolution. Our main aim is to create pieces which can engage emotionally, besides their functional needs. Our collections show this desire, interpreting the social changes and giving voice to the singular considerations of the customers. We put our knowledge and professionalism at the disposal of whom will live in those locations. The plot changes over and over again: each piece realized to order has an exclusive value, where the extreme care of the details is the expression of our handmade legacy. All the personalized manufacturing is handcrafted: the result is a high-quality piece of furniture with a great aesthetic sense. In this story the customer is the centre of multiple tales, which express the potential of the bathroom, carrying the different sensations of those who inspired it. We are here to celebrate this meeting, among the human being, the design and the evolution. An elegant, versatile and personalized daily experience.

Il valore degli spazi artigianali.

The value of artisanal spaces.

La sensibilità estetica delle tecniche artigianali conferisce alle nostre collezioni l'esclusività di dettagli e finiture Made in Italy. Ogni pezzo è un'opera irripetibile di qualità superiore, che conserva dentro di sé tutto il valore di un oggetto realizzato a mano. Queste creazioni sono la manifestazione della nostra visione e lasciano al cliente la possibilità di esprimersi attraverso le personalizzazioni, trasferendo di volta in volta un nuovo significato al progetto.

The aesthetic sensitivity of the handcraft techniques provides to our collections the exclusivity of the details and finishings Made in Italy. Every piece is a unique work, which carries all the value and the quality of a handmade object. These creations are the display of our vision and leave the possibility to customer to express through the personalization, giving to the project each time a new meaning.

La Componibilità si apre spontaneamente alle contaminazioni umane. Crediamo che la personalizzazione sia in grado di conferire ai complementi un'immagine esclusiva, ecco perchè abbiamo concepito una collezione completamente componibile da cui attingere liberamente per ottenere infinite customizzazioni. Si potrà configurare la composizione in ogni suo elemento, si avrà l'opportunità di ridefinirne l'estetica scegliendo i moduli, le finiture e i colori. E l'occasione per una rilettura personale delle collezioni che metterà in scena nuove sorprendenti composizioni. Le potenzialità della Componibilità si esprimono nell'accuratezza dei singoli elementi che, una volta accostati, rendono la visione finale così straordinaria. Con Modularity eleviamo la customizzazione dei mobili bagni ad un nuovo livello creativo.

Modularity opens spontaneously to humans' influences. We believe that the possibility to personalize a product gives it an exclusive image, and this is why we thought about a collection which is entirely modular, obtaining endless personalization. It will be possible to compose the furniture in each element, defining the aesthetics by choosing the modules, finishes and colours. It will be a personal interpretation of our collection, which will create new and surprising models. The full potential of the modularity is expressed by the accuracy of each element which once put beside each other, will show an extraordinary final product. With Modularity we heighten the customization of the bathroom furniture to a completely new creative level.

Modularity. Componibilità

Attingiamo all'arte, alla moda e alla cultura per interpretare il presente, offrendo nuovi stimoli visivi e sensoriali. Ciò che immaginiamo sono ambienti in cui la creatività è libera di esprimersi e dialogare in armonia con le tendenze più contemporanee. Queste collezioni definiscono la personalità degli spazi attraverso accostamenti inediti di materiali, finiture, colori e la possibilità di una progettazione completa plasmata intorno alla visione individuale. Arredi innovativi, privi di virtuosismi estetici, rivelano forme e movimenti dal respiro internazionale. Approfondiamo ed esploriamo nuove soluzioni, con l'obiettivo di proiettarci in avanti, verso un percorso di ricerca e sviluppo guidato nel rispetto del nostro know-how tradizionale.

We draw fully from art, fashion and culture to read the present, offering new visual and sensorial inputs. What we imagine are environments where the creativity is free to express and interact harmoniously with the contemporary tendency. These collections define the personality of each space through the combination of original materials, finishes, colours, and the possibility to completely design your individual vision. Innovative furniture, without aesthetic exaggerations, reveal forms and movements with international influences. We deepen and explore new solutions, with the aim of pushing always forward, towards a path of research and development, never forgetting our traditional know-how.
